

Senior ERP Automation Engineer

We are looking for an experienced Senior ERP Automation Engineer to design, develop, and optimize ERP solutions that improve business efficiency and automate workflows.

Key Responsibilities

- Develop and customize ERP systems (ERPNext, Odoo, SAP, Dynamics 365).
- Build automation workflows, scripts, APIs, and integrations.
- Integrate ERP platforms with CRM, HR, accounting, and third-party applications.
- Analyze and optimize business processes through automation.
- Troubleshoot ERP issues and ensure system performance.
- Create technical documentation and maintain security standards.
- Collaborate with stakeholders and mentor junior team members.

Requirements

- Bachelor's degree in Computer Science, IT, or a related field.
- 5+ years of ERP development and automation experience.
- Strong skills in Python, JavaScript, SQL, REST APIs, and integrations.
- Experience with ERPNext, Odoo, SAP, or Microsoft Dynamics 365.
- Knowledge of Git, databases, cloud platforms, and workflow automation tools.

Preferred Skills

- ERP implementation and solution architecture experience.
- Familiarity with Docker, Kubernetes, DevOps, and CI/CD.
- ERP-related certifications are a plus.

Job Details

- **Location:** Remote / Hybrid / On-Site
